Environmental Protection Agency
Mail Stop 524
1200 6th Ave.
Seattle, WA 98101

Dear Jim:

We certainly appreciated your willingness to contribute your expertise to our Brown Bag Seminar on PCB's.

Please inform us if Region 10 approves any means of disposing of capacitors locally. We are following the progress of Environmental International, Inc. in Region 7, but would prefer a disposal technique which is closer to home.

Again, thank you for your participation.

Sincerely,

Claire Dyckman
Associate Environmental Analyst
Office of Environmental Affairs
